

BUILDING EFFECTIVE TEAMS

A WORKSHOP FOR LEADERS

Stepping away from the day to day tasks and focussing on team development is essential for creating high-performing teams.

This one day workshop, will help your leaders, by giving them the framework and skills to start their journey of team development. Your business will benefit from teams who are more motivated and leaders who are more effective.

This workshop is for those about to take the first steps into managing teams or those who have been managing teams for some time and are looking to improve their team building skills.

The workshop is ideal for

- Site Agents
- Project Managers
- Team Leaders
- Department Heads

Delegates are assessed throughout the day to ensure they are progressing as expected.

The course is delivered face to face on your premises.

Contact us today for more information or to book your training slot and gain higher performing teams in your business.

Management Style

The three main management styles, the advantages and disadvantages of both and evaluation of their own management style.

A Leader's Personality

Focus on the different traits of personality and how those traits affect a team. Advice on how to develop certain areas of their personality.

Vision

How leaders should consider what their vision is, vision statements, how to convey their vision to the team and goal setting.

Building The Team

Team building methods including introverts, mentoring, empowerment, hard conversations, recognising success, marketing and socialising.

The Working Environment
